SUMMARY

I'm a dynamic, user-friendly, and high-performance web application developer specializing in MERN Stack. With deep expertise in JavaScript, React, and Node.js, I transform ideas into scalable and efficient digital solutions. By combining sleek UI/UX principles with a strong back-end architecture, I strive to deliver seamless digital experiences. Constantly exploring new technologies, I aim to enhance project efficiency and user engagement.

WORK EXPERIENCE

Frontend Developer - Travacco   **Oct 2025 - Present**

- Contributed to a large-scale SaaS travel management platform used by agencies across multiple countries.
- Improved invoice automation flows, stabilized complex API integrations, and optimized system performance for real-time operations.
- Worked closely with backend and product teams to ensure smooth workflows and high-quality feature delivery.
- Gained production-level experience with high-volume data, enterprise workflows, and TypeScript-based architecture.

VAT Fiscal Data Analysis Project – Baku Design Academy | MVP Project   **Aug 2024 - Nov 2024**

- I took on the frontend development of an MVP-stage startup and delivered a launch-ready product in just 3 months
- Collaborated closely with experienced Product Owners (PO), QA engineers, Data Analysts, and Backend developers.
- Built a high-performance, user-friendly interface using React.js and modern UI/UX principles.
- Developed component-based, reusable code structures to enhance project scalability.

Frontend Developer – ITB Techno   **May 2024 - Sep 2024**

- Gained hands-on experience working on real-world projects, contributing to the entire software development process.
- Developed user-friendly interfaces using HTML, CSS, JavaScript, and React.js during frontend development tasks.
- Collaborated effectively with experienced developers in a team environment, contributing to various stages of project development.
- Focused on performance optimizations and responsive design to enhance the user experience across different devices.

EDUCATION

Code Academy - Full Stack Development   **Sep 2024 - Jan 2025**

IT Brains Academy - Frontend Development   **Jun 2023 - Dec 2024**

Baku State University - Computer Science (bachelor)   **Sep 2022 - Present**

ADDITIONAL INFORMATION

- **Technical Skills:** HTML5, CSS/SCSS, Bootstrap, Tailwind ,JavaScript, Typescript, React.js,Next.js, Node.js, Express.js, MongoDB, Git, GitHub, Responsive Design, Jira
- **Languages:** English(B2), Azerbaijani(C2), Korean(A2)
- **Soft Skills:**Teamwork, Attention to Detail, Research and Analysis, Critical Thinking, Problem Solving, Adaptability, Time Management

---
